

## Women's Health- Endurance, Vitality and Everyday Energy Redefined!

An award winning, integrated and synergistic extract of beetroot & pomegranate developed using Bio Active Fusion Technology to support circulation, endurance, energy and metabolism naturally with superior low-dose efficacy.

### The Science of Women's Wellness

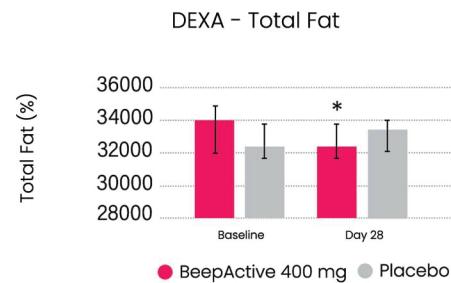

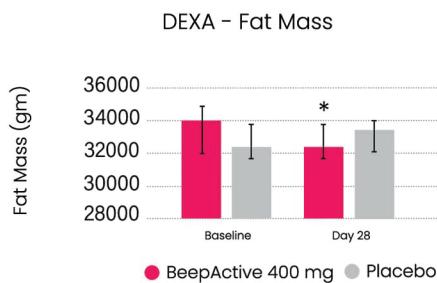

Women's wellness is rooted in balance and resilience — the harmony of energy, circulation, and inner strength that sustains vitality through every stage of life.

BeepActive enhances vascular function and nitric oxide (NO) production, improving blood flow to support metabolic efficiency, reproductive wellness, and daily energy needs. By also reducing fatigue and supporting healthy body composition and muscle strength, BeepActive helps women feel vibrant, strong, and confident every day.

### Backed by multiple gold-standard clinical studies

#### Body Composition and Metabolic wellness

Clinically proven to reduce Fat Mass and Total body Fat Percentage, supporting a healthy body composition that may support metabolic and reproductive health.

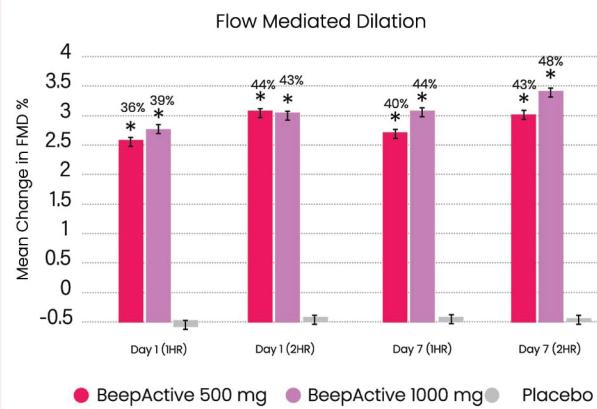

#### Vasodilation and Circulatory Support

Improves Flow-Mediated Dilatation (FMD) — a key indicator of endothelial and vascular health — observed as early as Day 1, which may support ovarian and uterine wellness.

#### Flow Mediated Dilatation

Flow mediated dilation (FMD) is a non-invasive technique used to assess the health of blood vessels. FMD is an indicator of endothelial function and vascular health.

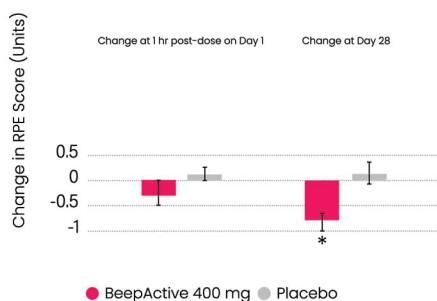

## ● Reduced Fatigue & Perceived Exertion

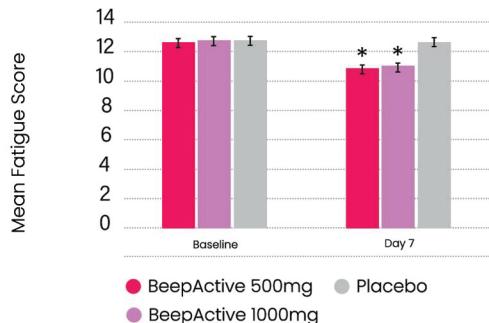

Demonstrated significant reduction in Physical Fatigue and Perceived Exertion, helping sustain energy throughout the day.

Change in Rating of Perceived Exertion

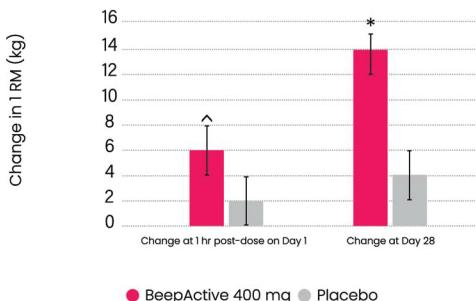

Fatigue

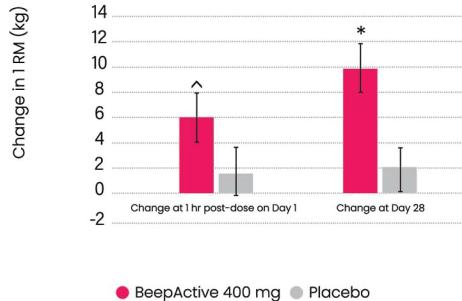

## ● Muscle Strength & Vitality

Demonstrated increased Upper Body and Lower Body strength supporting overall resilience and vitality.

Change in Leg Press - 1 RM

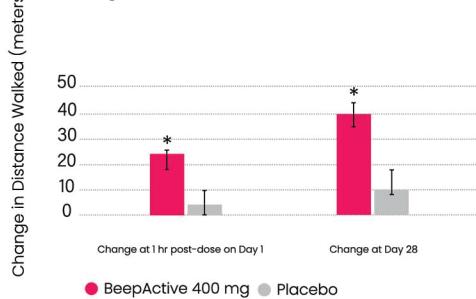

Change in Bench Press - 1 RM

## ● Endurance and Energy

Demonstrated significant increase in Endurance as early as day 1, supporting daily energy demands.

Change in Distance Walked in 6 Min Walk Test

Dosage: 400-500mg

# BeepActive™

Backed by two robust clinical studies, BeepActive has shown to support vascular health, circulation, and nitric oxide levels helping promote energy, endurance, and overall vitality. By enhancing blood flow and vasodilation, it may support aspects of reproductive wellness. Its role in reducing fatigue and supporting healthy body composition may contribute to metabolic health, while improved muscle strength may aid physical resilience empowering women to feel energized and confident at every stage of life.
